PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience in JavaScript, Node.js, React.js, and MongoDB. Built and deployed 2 production-grade web applications. Completed 150+ LeetCode problems and DSA with Java. Seeking a software engineering role to contribute and grow.

Education

Technocrats Institutes of Technology — Bhopal, M.P
B.Tech in Computer Science And Engineering (Data Science) — *Sep. 2022 – June 2026*

NISM Higher Secondary School, Samastipur — Patna, Bihar
Intermediate — Bihar Board — *May. 2020 – June 2022*

Projects

CoreGPT — AI-Powered Chat Application | *Node.js, Express.js, React.js, MongoDB* | Link — Apr 2026

- AI chat app integrating Google Gemini 1.5 Flash API with multi-turn conversation memory and thread management.
- Architected REST API with 4 endpoints handling thread creation, message persistence, and AI response flow using MVC pattern.
- Implemented React Context API for global state management across Sidebar and ChatWindow components with UUID-based thread tracking.
- Persisted full chat history in MongoDB with user/assistant role tracking and auto-generated thread titles from first message.

Wander-stay - Full-Stack Property Rental Platform | Link — May 2026

- full-stack platform with complete CRUD operations for property listings using Node.js, Express.js, and MongoDB.
- Implemented secure user authentication and authorization using Passport.js with role-based access control — listing owners and review authors manage only their own content.
- Integrated Cloudinary for cloud-based image storage and Multer for file upload handling, enabling seamless property image management.
- Designed server-side input validation using Joi schema, preventing invalid data from reaching the database with real-time user feedback via connect-flash.
- Deployed on Render.com with MongoDB Atlas as cloud database, managing sessions securely via MongoStore with 7-day cookie expiry

ConnectIQ — Professional Networking Platform | *Next.js, Node.js, Express.js, MongoDB, Bcrypt* — in present

- Networking platform with SSR via Next.js, decoupled REST API, and social graph for developers and recruiters.
- Implementing in-app PDF resume generator using PDFKit - enabling users to export profiles as downloadable CVs from platform

Technical Skills

Languages: Java,JavaScript(ES6+), HTML5/CSS3
Front-end :React, EJS, Bootstrap
Back-end : Node.js, Express.js, REST API
Database: SQL, MongoDB
Developer Tools: Git, GitHub, VS Code, IntelliJ, Eclipse, Postman
Other's : Data Structures And Algorithms, DBMS, OS, OOPS

ACHIEVEMENTS / CERTIFICATES

- **Solved 150+ DSA Problems on LeetCode and CodeChef**
- **Apna College Alpha (DSA with Java) completed**
- **Java Programming Certificate – CodeChef**
